

**COMPEX™ CMX-F30W**  
Release Fabric

Ideally suited to reusable edge breather applications.

**FEATURES & BENEFITS**

- Heavy weight PTFE coated glass fabric mesh, normally used as a reusable edge breather around the periphery of tooling.
- Plain weave with 4x4mm (0.16x0.16in) open mesh pattern.
- Resistant to chemical attack by even the most aggressive resin systems, ensuring a long life is achieved.

**PROPERTIES**

Maximum cure temperature	260°C / 500°F
Color	Brown
Fabric type	Glass
Fabric weight	460g/m <sup>2</sup> / 13.57oz/yd <sup>2</sup>
Release coating	PTFE

**AVAILABILITY**

Standard width	1m	1.09yd
Formats available	30m	32.8yd
	Slit widths available to order	

**STORAGE**

No special storage instructions.

**HEALTH & SAFETY**

Please refer to the product MSDS for safe handling, personal protective equipment recommendations and disposal considerations.
