

Ideally suited to infusion applications.

FEATURES & BENEFITS

- Diamond pattern resin distribution infusion mesh designed for use in vacuum assisted resin infusion processes.
- Low density polyethylene version of standard VI2 allowing for superior drapeability.
- Constructed from LDPE and manufactured in a diamond pattern to allow controlled resin flow across the laminate.
- Allows for a sustainable air evacuation route when used with appropriate bagging materials.
- Can also be beneficial in debulking applications as it can be used as a reusable breather beneath bagging film to ensure adequate airflow.
- Ideal for use in areas of complex tooling geometry.

PROPERTIES

| | |
|-------------------------|--|
| Maximum use temperature | 80°C / 176°F |
| Color | Green |
| Fiber | Low density polyethylene (LDPE) |
| Weight | 230g/m ² / 6.78oz/yd ² |

AVAILABILITY

| | | |
|-------------|--------------|---------------|
| Width | Up to 1.2m | Up to 1.31yd |
| Length | Up to 50m | Up to 54.6yd |
| Roll Weight | Up to 13.9kg | Up to 30.6lbs |

STORAGE

No special storage conditions required.

HEALTH & SAFETY

Please refer to the product MSDS for safe handling, personal protective equipment recommendations and disposal considerations.
