

Ideally suited to infusion applications.

## FEATURES & BENEFITS

- Knitted infusion mesh designed for use in vacuum assisted resin infusion processes.
- Ideal for use in areas of complex tooling geometry and high temperature applications.
- Constructed from PET and manufactured in a 3D knitted pattern to allow controlled resin flow across the laminate.
- Allows for a continuous air evacuation route when used with appropriate bagging materials.

## PROPERTIES

|                         |  |
|-------------------------|--|
| Maximum use temperature | 200°C / 392°F                                |
| Color                   | White  |
| Fiber                   | Polyester HT net (PET)                       |
| Weight                  | 100g/m <sup>2</sup> / 2.95oz/yd <sup>2</sup> |

## AVAILABILITY

|             |            |               |
|-------------|------------|---------------|
| Width       | Up to 1.2m | Up to 1.31yd  |
| Length      | Up to 100m | Up to 109yd   |
| Roll Weight | Up to 12kg | Up to 26.5lbs |

## STORAGE

No special storage conditions required.

## HEALTH & SAFETY

Please refer to the product MSDS for safe handling, personal protective equipment recommendations and disposal considerations.
