

Ideally suited to infusion applications.

## FEATURES & BENEFITS

- Open polyethylene mesh suitable for resin infusion processing.
- The open 3.175mm (0.125in) diamond mesh allows for easy flow of resin to ensure complete substrate saturation during the infusion process.
- Compatible with most commonly used infusion resins.
- Will not fray when cut, and lays flat on tooling and part surfaces.

## PROPERTIES

Maximum use temperature	121°C / 250°F
Color	Red
Fiber	LDPE / HDPE blend
Weight	140.33g/m <sup>2</sup> / 4.14oz/yd <sup>2</sup>

## AVAILABILITY

Width	1.5m	60in
Length	106.7m	350ft
Thickness	1.27mm	0.050in
Roll Weight	22.8kg	50.3lb

## STORAGE

No special storage conditions required.

## HEALTH & SAFETY

Please refer to the product MSDS for safe handling, personal protective equipment recommendations and disposal considerations.
