

COMPEX™ R220
Release Film

Ideally suited to infusion applications.

FEATURES & BENEFITS

- Cost optimized, very flexible release film, ideal for use in resin infusion.
- Colored clear orange to allow resin front to be clearly viewed during infusion and to aid complete removal when de-bagging.
- High conformability with good elongation compliment the film's excellent release characteristics.
- Suitable for use with epoxy, polyester and vinylester resins, although it is advisable that a test piece is produced prior to committing to a full scale infusion in order to ensure that compatibility and performance meet desired standards.
- Available perforated or non-perforated.

PROPERTIES

Maximum use temperature	120°C / 248°F
Color	Clear orange
Film	PE
Standard perforation patterns	Contact us for full details
Tensile strength (at break)	35MPa / 5076psi
Elongation (at break)	580%
Density	0.953g/cm ³ / 0.55oz/in ³

AVAILABILITY

Thicknesses	25µm	0.001in
Standard width	Up to 2m	Up to 80in
Standard length	500m	547yd

STORAGE

Store in original packaging.

HEALTH & SAFETY

Please refer to the product MSDS for safe handling, personal protective equipment recommendations and disposal considerations.
