

COMPEX™ ST-A232
Sealant Tape

Ideally suited to aerospace applications.

FEATURES & BENEFITS

- Approved on various aerospace specifications.
- Extremely versatile high temperature sealant tape for oven and autoclave applications.
- Will perform throughout the temperature range, from room temperature to 232°C (450°F), adhering firmly to tool surfaces and bagging films.
- Forms a positive vacuum seal which is maintained throughout cure, and strips cleanly and quickly on cure, on cooling below 66°C (150°F).
- Clean release from a range of tool surfaces after use.

PROPERTIES

Maximum cure temperature	232°C	450°F
Color	Dark grey	

AVAILABILITY

Roll size	9.14m x 12mm x 3mm	30ft x 0.5in x 0.125in
Standard box contents	32 rolls per box	

STORAGE

Must be stored in its original containers, below 27°C (81°F).
Material has a nine month shelf life from date of manufacture.
Must be stored flat.

HEALTH & SAFETY

Please refer to the product MSDS for safe handling, personal protective equipment recommendations and disposal considerations.
