

**COMPEX™ ST-A400**  
Sealant Tape

Ideally suited to aerospace applications.

**FEATURES & BENEFITS**

- For use in ultra-high temperature applications where traditional sealant tapes will not survive, such as the manufacture of thermoplastics.
- For best seal, apply pressure onto the film with a roller (and use a localised direct heat source if necessary).
- Unique polymer formulation.

**PROPERTIES**

Maximum cure temperature	399°C	750°F
Color	Dark brown	

**AVAILABILITY**

Roll size	9.14m x 18mm x 3mm	30ft x 0.7in x 0.125in
Standard box contents	24 rolls per box	

**STORAGE**

Must be stored in its original containers, below 27°C / 81°F and allowed to return to room temperature before use. Material has a 9 month shelf life from date of manufacture.  
Must be stored flat.  
Boxes should be stacked no more than 5 high.

**HEALTH & SAFETY**

Please refer to the product MSDS for safe handling, personal protective equipment recommendations and disposal considerations.
