

POLYCARBONATE SOLID SHEETS >

General Purpose and UV Solid Sheets

Key Benefits

- Transparent, opal and opaque options are available.
- Excellent optical clarity.
- Combines excellent impact design and hardness with thermoforming and cold forming technology.
- Double-surface UV protected boards do not degrade in sunlight and extreme weather conditions for many years.
- Potential savings in system costs and freedom of design.

Application Areas

- Interior and exterior glass applications
- Roof, skylight, dome and conservatory applications
- CleanWall applications
- Medical fields such as hospital, clinics and laboratories
- Schools and shopping centers
- Airports, bus stops, train stations
