

POLYCARBONATE SOLID SHEETS >

MirrorLine Aircraft Mirror Sheets

More cost-effective than tempered glass and polished metal, PolyLine MirrorLine is the perfect choice of mirror applications in aircraft.

Key Benefits

- Made of light weight, high quality polycarbonate
- Provides excellent optical clarity and meets FAR 25.853 (a) requirements.
- One-side coated with abrasion resistant and high tolerance to scratching. The other side which is thermoplastic material offers exceptionally high reflective values.

Application Areas

All aircraft cabins and toilets
